

Perforated Diamond Grille

Crafted from a 1mm solid brass sheet, our Perforated Diamond Grille features a refined repeat pattern suited to both contemporary and classic interiors. Designed for applications including cabinetry, radiator covers, entertainment units, and air conditioning covers, each grille is made to size and available in our 10 signature grille finishes, alongside polished brass unlacquered (PBUL) and polished brass lacquered (PBL).

Grille thickness: 1mm (excluding mesh)

Air flow: Air flow refers to the amount of open area within a grille, which directly affects ventilation performance for heating and air conditioning systems.

45% (excluding mesh)

Please note that the addition of mesh backing will significantly reduce the overall air flow of the grille, additionally decreasing the air flow by approximately 58–65%, depending on the mesh selected.

Additional information

Minimum: 40mm x 40mm (2inch x 2inch)
Maximum: 1730x840mm (68.5inch x 33inch)

9.5mm internal diamond

Mesh options

Our Mesh is commonly used as a backing for many of our decorative grilles, adding subtle texture while helping to conceal behind the panel.
